Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit [www.guggenheimfunds.com](http://www.guggenheimfunds.com). The investment return and principal value of an investment will fluctuate with changes in market conditions and other factors so that an investor's shares, when redeemed, may be worth more or less than their original cost.

Returns for periods of less than one year are not annualized; Returns for periods of more than one year are annualized.

All distributions are assumed to be reinvested either in accordance with the dividend reinvestment plan (DRIP) for market price returns or NAV for NAV returns. Until the DRIP price is available from the Plan Agent, the market price returns reflect the reinvestment at the closing market price on the last business day of the month. Once the DRIP is available around mid-month, the market price returns are updated to reflect reinvestment at the DRIP price.

Since Inception returns assume a purchase of common shares at the initial offering price for market price returns or initial net asset value (NAV) for NAV returns.

## PERFORMANCE ANALYSIS As of 4.30.2012

Fund		2012 YTD	1-Year	3-Year	5-Year	Since Inception

---

This information does not represent an offer to sell securities of any fund and it is not soliciting an offer to buy securities of any fund. There can be no assurance that any of these funds will achieve their investment objectives. The net asset values of these funds will fluctuate with the value of the underlying securities. It is important to note that closed-end funds trade on their market value, not net asset value, and closed-end funds often trade at a discount to their net asset value. Past performance is not indicative of future performance.

**RISK CONSIDERATIONS** An investment in the Fund is subject to certain risks and other considerations. Such risks and considerations include, but are not limited to:

**AGC** Investment Risk, Investment and Market Discount Risk, Convertible Securities Risk, Structured and Synthetic Convertible Securities Risk, Interest Rate Risk, Credit Risk, Lower Grade Securities Risk, Preferred Securities Risk, Foreign Securities Risk, Foreign Currency Risk, Derivatives Risk, Equity Securities Risk, Risk Associated with the Fund's Covered Call Option Writing Strategy, Counterparty Risk, Liquidity Risk, Smaller Company Risk, REIT, Mortgage-Related and Asset-Backed Securities Risk, Income Trust and Master Limited Partnership Risks, Dividend Capture Trading Risk, Reinvestment Risk, Management Risk, Market Disruption Risk, and Anti-Takeover Provisions.

**AVK** Investment and Market Discount Risk, Convertible Securities Risk, Synthetic Convertible Securities Risk, Lower Grade Securities Risk, Leverage Risk, Interest Rate Risk, Illiquid Investments Risk, Foreign Securities Risk, Management Risk, Strategic Transactions Risk, Market Disruption Risk, Anti-Takeover Provisions Risk, Auction Rate Securities Risk, and Certain Other Risk.

**FFC** Investment Risk, Credit Risk, Investment and Market Risk, Management Risk, Hedging Risk, Leverage Risk, Concentration Risk, Inflation Risk, Anti-Takeover Provisions, Market Disruption, Subordination, Limited Voting Rights, Deferral Risk, Special Redemption Rights, Illiquidity and Tax Risks.

**FLC** Credit Risk, Investment and Market Risk, Management Risk, Hedging Risk, Leverage Risk, Concentration Risk, Inflation Risk, Anti-Takeover Provisions, Market Disruption, Subordination, Limited Voting Rights, Deferral Risk, Special Redemption Rights, Illiquidity and Tax Risks.

**FMO** Investment Risk, MLP Risk (specifically, there are tax risks associated with an investment in MLP units), Energy and Natural Resources Risk, Options Risk, Unregistered or Restricted Securities Risk, Lower-Grade Securities Risk, Financial Leverage, Affiliated Party Risk, Equity Securities Risk, Small Capitalization Risk, Cash Flow Risk, Liquidity Risk, Valuation Risk, Interest Rate Risk, Portfolio Turnover Risk, Foreign Securities, Royalty Trusts, Non-Diversified Status, Concentration Risk and Derivatives Risk. The Fund will be treated as a regular corporation, or "C" corporation, for U.S. federal income tax purposes. Accordingly, the Fund generally will be subject to U.S. federal income tax on its taxable income at the graduated rates applicable to corporations (currently at a maximum rate of 35%) as well as state income taxes, where applicable. However, it is anticipated that, due to the nature of MLP dividends, the majority of income received by the Fund will be classified as a non-taxable return of capital for tax purposes. If this expectation is not realized, the Fund will have a larger corporate income tax expense than expected, which will result in less cash available to distribute to shareholders. While the Fund will generally seek to maximize the portion of the Fund's distributions to Common Shareholders that will consist of tax-deferred return of capital, no assurance can be given in this regard. Because of the Fund's concentration in MLP investments, the Fund is not eligible to elect to be treated as a regulated investment company under the Internal Revenue Code of 1986, as amended (the "Code").

**GBAB** Not a Complete Investment Program, Investment and Market Risk, Management Risk, Build America Bonds Risk, Continuation of BABs Program, General Municipal Securities Market Risk, Credit Risk, Interest Rate Risk, Duration Management Risk, Financial Leverage Risk, Reinvestment Risk, Inflation/Deflation Risk, Insurance Risk, Below Investment-Grade Securities Risk, Sector Risk, Special Risks Related to Certain Municipal Securities, Asset-Backed Securities Risk, Senior Loan Risk, Liquidity Risk, Volatility Risk, Inverse Floating-Rate Securities Risk, Recent Market Developments, Government Intervention in the Financial Markets, Legislation Risk, Strategic Transactions Risk, Synthetic Investments Risk, Counterparty Risk, Securities Lending Risk, Investment Funds Risk, Market Discount Risk, Portfolio Turnover Risk, Market Disruption and Geopolitical Risk.
