Past performance is not indicative of future performance. To the extent any portion of the distribution is estimated to be sourced from something other than income, such as return of capital, the source would be disclosed on a Section 19(a)-1 letter located on the Fund's website under the "Literature" tab. A distribution rate that is largely comprised of sources other than income may not be reflective of the Fund's performance.

There are risks associated with investing, including the entire loss of principal invested. As interest rates rise, the value of fixed-income securities held by the Funds are likely to decrease. Securities with longer durations tend to be more sensitive to interest rate changes, making them more volatile than securities with shorter durations. As interest rates fall, the Funds' income will decline. In addition the Funds are subject to Credit/Default Risk, Asset Class Risk, Call Risk/Prepayment Risk, Extension Risk, Liquidity Risk, Foreign Issuers Risk, Declining Yield Risk, Fluctuation of Yield and Liquidation Amount Risk, Derivative Risk, Non-Correlation Risk, Replication Management Risk, Issuer-Specific Changes, and Non-Diversified Fund Risk.

Consider the investment objectives, risks, charges and ongoing expenses of any ETF carefully before investing. The prospectus or summary prospectus, if available, contains this and other relevant information. Please read the prospectus carefully before investing.
