

**TS&W/Claymore Tax Advantaged Balanced Fund
(NYSE: TYW)**

Cusip: 87280R108

Dear Shareholder(s):

The quarterly distribution in the amount of \$0.2000 per share payable September 30, 2011 from the TS&W/Claymore Tax Advantaged Balanced Fund (the "Fund") to shareholders of record on September 15, 2011 is estimated to consist of \$0.1329 per share of investment income and \$0.0671 per share of short-term capital gains.

The final determination of the source of the 2011 distributions will be made after the end of the Fund's fiscal year and will be reported to you in January 2012 on Form 1099-DIV.

The Fund adopted a managed distribution policy such that the quarterly distributions to shareholders would consist of net investment income and net realized gains, if any. In order to include realized long-term capital gains as a component of these quarterly distributions, exemptive relief is required from the Securities and Exchange Commission because the SEC only allows for effectively one long-term capital gain distribution per year. The Fund's request for such relief is still pending SEC approval and as such the Fund can not include any realized long-term capital gains as a component of this distribution.
